INFORMATION DISCLOSURE STATEMENT

Sir:

Applicants submit the references listed on the attached FORM PTO-1449, copies of which are enclosed. This statement is being filed simultaneously with the above-identified application.

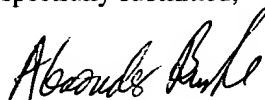

Brown discloses a health management process control system for remotely monitoring a patient. A patient-computing device collects data relating to the patient's health condition and transmits the data to a clinician computer via a communication network. A data view program is included in the system that displays a sample data on the screen of the clinician computer. A set of control buttons allow the clinician to scroll through different days or weeks of the patient's data to quickly view selected subsets from different days (See abstract, co. 15, Ins. 9+, and figures 10 and 11).

Seybold discloses a system and method for using a slider control for controlling parameters of a display item of a user interface. A tool tip appears on the interface to define the modified time scale setting (See abstract and figures).

The Examiner is respectfully requested to make this information of record in this case.

Respectfully submitted,

Date: 16 November 2001
